Athens, 4 February 2020

Dear Mister President,

We kindly inform you that during our Board Meeting on February 1 2020, our international relations director and board member, George Zgardanas, presented the Fair Defence Pay Campaign of EUROMIL. In Greece PFEARFU demands social dialogue for salaries and allowances. In 2019, we undertook court action in order to bring salaries back to 2012 levels and the Council of State will soon rule on constitutionality of salary cuts. The salaries are currently determined by the government and the parliament without any consultation. Compared to similar functions in the public sector, the military personnel are paid less than civilian state employees. Hence the Board of PFEARFU is pleased to support such a campaign and we believe that will lead to positive results by properly and responsibly inform the political and military leadership as well as the European military personnel.

Mj Dimitrios Rotas
President
